March 28, 2020

Hello Everyone,

We've all recently have had our daily routines upended as a result of Covid-19. We're thinking of you as well as all of our Jack Anthony communities across Long Island at this time. Whether your working from home or on the frontlines of this pandemic, we hope to keep you and your family as comfortable in quarantine as possible while working within the CDC Workplace Guidelines.

In case you didn't know:

*The Center for Disease Control (CDC) continues to report that **there is no evidence that COVID-19 can be spread to humans using pools and hot tubs. Proper operation, maintenance, and disinfection (e.g., with chlorine and bromine) of pools and hot tubs should remove or inactivate the virus that causes COVID-19.*** (<https://www.cdc.gov/coronavirus/2019-ncov/php/water.html>)

Although most of our staff is working from home, we're still answering the phones and emails as quickly as possible and scheduling work as the state allows.

We are happy to report that none of our team members have been treated for or reported any covid-19 symptoms. We are committed to keeping our team members and our client's safe while we all work though this together.

If you have any questions or concerns please feel free to reach out to me directly. Please know my family truly appreciates working for you and your family and we look forward to many, many continued years ahead.

Be safe, and as you know, this too shall pass!

Sincerely,
Michael R. Inzerillo
President
